Salt creek in Ross counts
The reservoirs would be deof bank streams could be di-charged through the year or 1 the time when floods in the alleys be low the dams reached danger

points
Water To Be 12 Feet

Water TO Re 12 Feet
Preliminary plans call for re
taining water in the reservoirs to
a depth of about 12 feet in Jan
unary to keep fish life in higher
clevations. Water would be per
mitted to flow over the dams un
till April when they would be
closed and the water stored until
the ensuing winter.

A capacity of 80 per cent would stitut

closed and the water stored until the ensuing winter.

A capacity of 80 per cent would be maintained so that the upper 20 per cent might take care of summer floods that have in recent summer floods that have in recent farm crops in the area.

Storage of the water would result in restoration of the sweet water table in sections where the supply has been gradually refreceding because of drouth proponents of the program believe They point out that the sweet water table in this area is now 138 feet lower than 80 years ago.

These huge reservoirs would the sweet water table in this area is now 138 feet lower than 80 years ago.

These huge reservoirs would the sweet water table in this area is now 138 feet lower than 80 years ago. Leaders in a Great Industry

Arether curto I y from one of Marian county a residence on members have eers doublight be stated in agricultural activities

The latest to gain distinction is Larl Blayres of M riew arts who vaniel tel president of the tirio organization of the Future I made of to In at its annual meeting in Columbia. About two years ago this same hen r went to Jothy Jones Delaware courty to who liter added to his laurels in the organization by winning ele tion to the national problems,

The success active it, the young stein and by numerous other ruint boys and girls in this section of the state can be regarded with full measure f antisfaction and pleasure by everybody interested in the future of Delivers and Morrow countless and all nearby localities. It is exidence that agriculture the very foundation and pri-mary source of business and industry in this part of Ohio is assured able handling in the years to come. It is an indication that farming which has been our mainstay nt all times is likely to be even a mine valuable asset and resource with the pass ing of time and with these young people taking alvantage of the improved facilities and greater efficiency made possible in their greatest of all enterprises

It is entirely fitting that these honors should come to what may justifiably be termed Ohios greatest agricultural area and there is every reason to believe that our young farmers will continue holding their place of leaders' p with the passing of years and the march of progress

AAA In Doubt

President Rooseveit has admilled he expects the AAA program to be sharply constricted in view of the sufferne courts decision in the Schechter case. The two principal points of the courts rolling against NRA may apply also to the agricultural

It too includes a delegation of power to the President though the delegation on tailed is more specific than that of the recovery net. The fact that only the deler mination of the amount of the promising tax is left to the executive branch offers a comparison with the President's power to after tariff s hedules. The supreme court has upheld that jower

Whether the procesing tax a fall within the taxing power of congress is more contentious. The government claims the taxes are distinctly for revenue purpose. but the court might find they are class legislation for the purpose of regulation and not recenue Constitutional experie recall that in the second decision on child inhor the supreme court invalidated a lax on products of child help establishments in interstate commerce on the grounds it was a suffer fuge for controlling worlding conditions properly the concern of the stat

AAA marketing agreements and licensum provisions would seem to stand in grave danger than the processing tax be ause many of them may fall outside the defini tion of inter ate commerce as laid dista in the decision on the 5 beebler case. The uncertainty which thit decision has thrown around AAA illustrates an ill effect of the courly decision on the teco ery act has caused disturbing confusion in judg ment of other legislation not affected di re th-lexi lation which must continue to In rift ced and which still commands important amounts of pullic confidence.

SCOTT'S SCRAPBOOK By R. J. Scott

Behind The News In -:-

Washington And Wall Street

One of the justices of the supreme court has confided to a friend that there was never an important difference of NRA upinion among his associates from the start. They were unanimous in their viewpoint from the beginning of their discus-

There is nothing in the story now There is nothing in the story now going around on the inside here that a majorit, of the court had great difficulty persuading the mit northy to join with it in order to avoid a split decision on such an important issue.

The fact is the court spent less time composing its opinion in this case (five weeks) than it ordinarily does on important cases (average time six weeks).

Triumple

Trlumpհ^

Triumph"
The triumphal reentry of Contohnson into Washington was not as triumphal as adverted. It appears that the White House heard about its prisate instation to the general free received. It appears that the white House heard about its prisate instation to the general free ceived it Apparently there is a leak in the zenerals organization. His staff is not so lugg as to leave any doubt in the mind of the administration as to it identity of the person who let out the news. That would not have made much difference had not the impression bren conveyed that Messrs kooselt and Richberg were so confused they were recall it the general they find exited in order to get straightened out. This press in terpretation was too much for the white Hou c. It immediates made the point clear that the general control of the person when the principles.

The Wille Hou a haa asked the la or depai ment to compile all reports on wage cutting and hour hand's. This data will be used publich, to ju lift the aliministration stand Unless employers want to help the new deal get the NIA brock on its feet they had better delay wage cutting and hour extension.

The Republicans have dug up and are preparing to use a speech of Pooseelt made when he was governor of New York deploring the growth of federal power.

The wurreme court is not the only government igency which the only government igency which the new dealers would like to clean out by dropping some of its older members foun of the eight members of the federal reserve board are approaching the age of 70.

A prominent Democratic editor wrote to an afficial here asking accessically where was all this national planning he had been leasing about in view of the confining absence of a reformation plan after the court decision. He also commented on the slowness in getting the works program in der was a lift to the confining about in view of the confining the heating after the court decision for more so) was Prof Felix Brankfurter of Harvard the old master of the hol dog boys. All though his name did not appear prominently he has been a frequent visitor at the Walle House since the court decision (Conyrish 1935 b) Paul Mallon) since the court decision (Copyright 1°35 by Paul Mallon)

BY JAMES MCMULLIN

BY JAMES MCMULLIN

NEW YORK June I—It was all

Nerry well for Secretary Morgen
than to play around once with this
stunt of seiling government bonds
to the highest bidder. But news
that he intend to follow the same
system to meet future treasury
needs for extre cash was a pain in
the nock to francoial circles.

Bankers complain that this
method in etitles the bond market
and keeps them on a continious.

method in ettles the bond market, and keeps them on a continuous pot They claim that nobody can tell while bids are pending how much to pas for the outstanding issue to which additions are being issue to which additions are being made. Also the competitive stuff keeps them on tenterhooks—not knowing how high they must go to qualify nor whether they are overbidding. The latter causes a bond dealer as much pain as it does a bridge place. Wise sources figure, the rapid recent growth of comporate financing has an important bearing on Mr Morgenthaus see motor. The treas
